

# Pre-departure COVID-19 test evidence of RAT/LAMP test

Most travellers require evidence of a negative pre-departure test (PDT) to enter New Zealand and must provide that information as a part of their New Zealand Traveller Declaration, [www.travellerdeclaration.govt.nz](http://www.travellerdeclaration.govt.nz).

This form guides health professionals supervising RAT or LAMP tests to provide consistent PDT information required by travellers. PDT result documentation does not have to be provided on this form, (alternate paper or digital format is acceptable), however all the information requested below must be provided by the testing provider. For further details go to [covid-19.govt.nz/pdt](http://covid-19.govt.nz/pdt).

## Traveller Information

Full name (as per passport) \_\_\_\_\_

Date of Birth \_\_\_\_\_

or Passport Number \_\_\_\_\_
